SILVER WING

Who says you have to choose between comfort and economy?

If you think scooters are just for zipping around campus or grabbing an espresso, have we got a wake-up call for you. Honda's Silver Wing® is a slice of two-wheeled transport that combines the best of both motorcycle and scooter styling. It's the perfect choice for an economic cruise in town and a luxurious getaway for the weekend.

SILVER WING

Key Features

- Four-stroke 582cc parallel-twin engine features double-overhead-cam (DOHC) construction and four valves per cylinder for unequalled engine performance and clean, efficient operation.
- The engine's 360-degree crankshaft design incorporates two primary balancer shafts into the crankcase to minimize vibration and give you a smooth ride.
- Programmed Fuel Injection (PGM-FI) for improved fuel efficiency, easy startups and lower emissions.
- The engine's crankshaft and swingarm pivot are coaxially aligned to eliminate the engine as an unsprung suspension member. That means better mass centralization for improved handling, stability, and rider comfort.
- Large 4.2-gallon fuel tank offers extended cruising range.

BE A RESPONSIBLE RIDER Riding a scooter is an exercise in responsibility – to yourself, to others, to the environment and to the sport. So remember, always wear a helmet, eye protection and protective clothing whenever you ride. Never ride under the influence of drugs or alcohol. Inspect your scooter before riding and read your owner's manual. Log on to the HRCA® website (hrca.honda.com) concerning reimbursement through the Honda Rider's Club of America® for Motorcycle Safety Foundation (MSF) rider training. Operating your scooter with a modified engine, emission control system or noise control system may be illegal. For more information visit powersports.honda.com.
